

Forward

As editor of the Williamson County Historical Society's Journal entitled Williamson County: Civil War Veterans-Their Reunions and Photographs in 2007, I began collecting photographs of Civil War veterans of Confederate and Union soldiers, along with a few U.S. Colored Troops and Body Servants. At that time, I presented three hundred and seventy-two veterans. In the following pages, you will find six hundred and seventy-three photographs.

Few counties in Tennessee are fortunate to amass this number of period photographs of individual soldiers, both Confederate and Federal, native or transplant, as are included in this collection. This album identifies many men and boys who were forced to make a difficult choice—bear arms for their state or their country. A larger majority, more than 1,600 native Williamson Countians, chose the Confederate over the Union.

A majority of the men joined local units that were raised from within the county. Examples of the Southern army are the Williamson Greys known as Co D 1st Tennessee Infantry; Co F 4th Tennessee Cavalry, Baxter's Battery, Co H 20th TN Infantry, Co A 45th Tennessee Infantry, and Co D 32nd Tennessee Infantry. On the Federal side, Rickman's Co H 5th Tennessee Cavalry were men from the southeast section of Williamson County. Veterans who came to Williamson County after the war are also included. It was difficult to provide the birth and death dates for some veterans, particularly if they moved out of the state.

I would like to take this opportunity to thank those who have offered their family photographs for this project. If additional photographs are found, I would love to include them on the williamsoncountyhistory.com site.

Enjoy the past. Look to the future.

Respectfully,

Rick Warwick, Williamson County Historian

October 18, 2023
